

Specialty Pharmacy of St. Louis

Lee Ori, PharmD – Creve Couer, Missouri

“I am a 100% PCCA supporter. I buy virtually ALL my chemicals, supplies, and equipment from PCCA. The value of PCCA’s quality, service, education, consultants, networking and relationships justifies my loyalty.”

— Lee Ori, PharmD

Specialty Pharmacy of St. Louis opened in a 770-square-foot space in 2003, but owner Lee Ori has expanded twice since then and now has a 3,850-square-foot facility. “When I opened my practice, I wanted to outfit the store with every piece of equipment PCCA had to offer,” Ori says, “as I didn’t want to have to turn a customer away or refer them to a competitor.” His staff uses PCCA PK Software, including the compatible barcode scanner, to help ensure accuracy during compounding.

Lee Ori opened his compounding-only pharmacy in 2003.

Located near five different hospitals and numerous medical professional buildings, the pharmacy features a compounding lab, a consultation room, a cleanroom, and a retail area where nutritional and wellness products are sold. A longevity physician also practices in the pharmacy, treating menopause; andropause; adrenal fatigue; nutrition; and wellness; and prescribes compounds and nutritional products to support these areas.

The pharmacy makes numerous compounds for pregnant women and those who are trying to achieve pregnancy. “We compound anything from ginger/B6 lollipops for nausea, to custom vitamins, to injectables, to help prevent early delivery,” says Ori. “Patients who have been trying to have a baby for years are finally able to do so with our help. It is truly rewarding to bring a new life into this world.”

The staff likewise treats many autistic patients. “Parents tell us that the medications we provide their children help them function better. We did a fluoxetine chocolate candy for an autistic patient who wouldn’t take his medication. He now takes his medication every day and thinks he’s getting a treat.”
